

DITIO tutorial

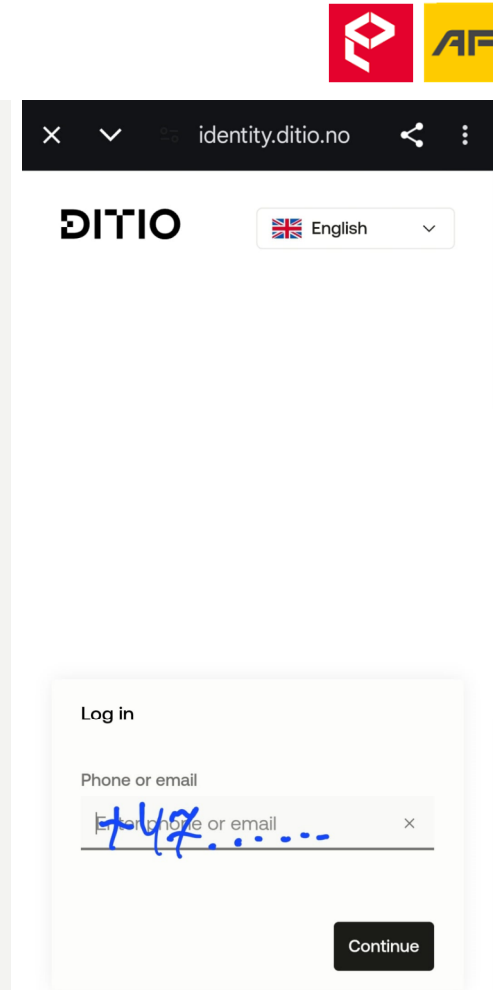

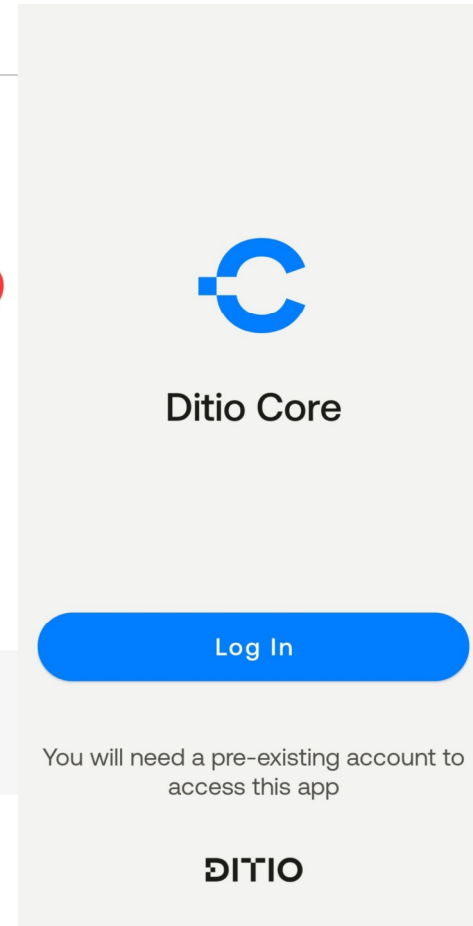

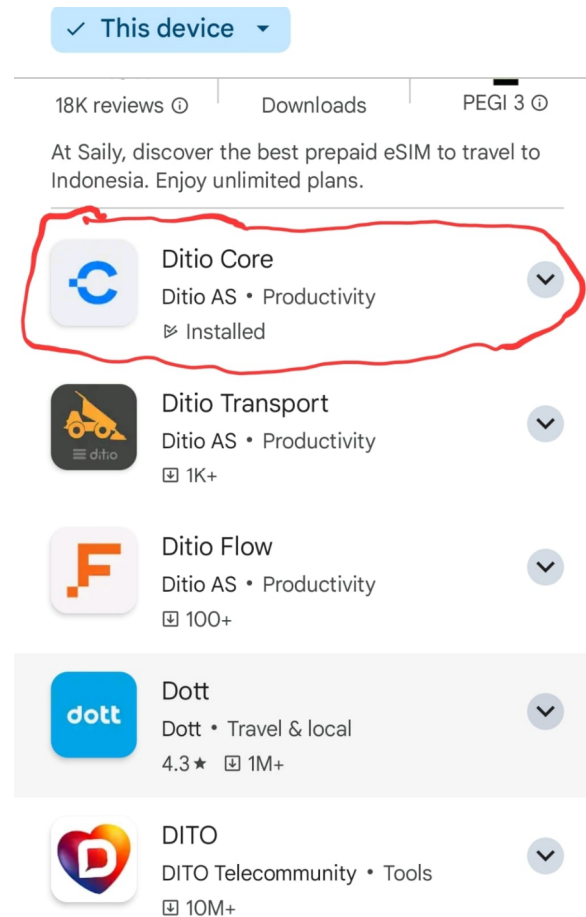

1. After Signing of contract and registration period is finished you will receive welcome SMS to log in in DITIO

2. Install app Ditio Core

3. Log in with your mobile phone

If you didnt receive invitation SMS, contact Roman +4747677393

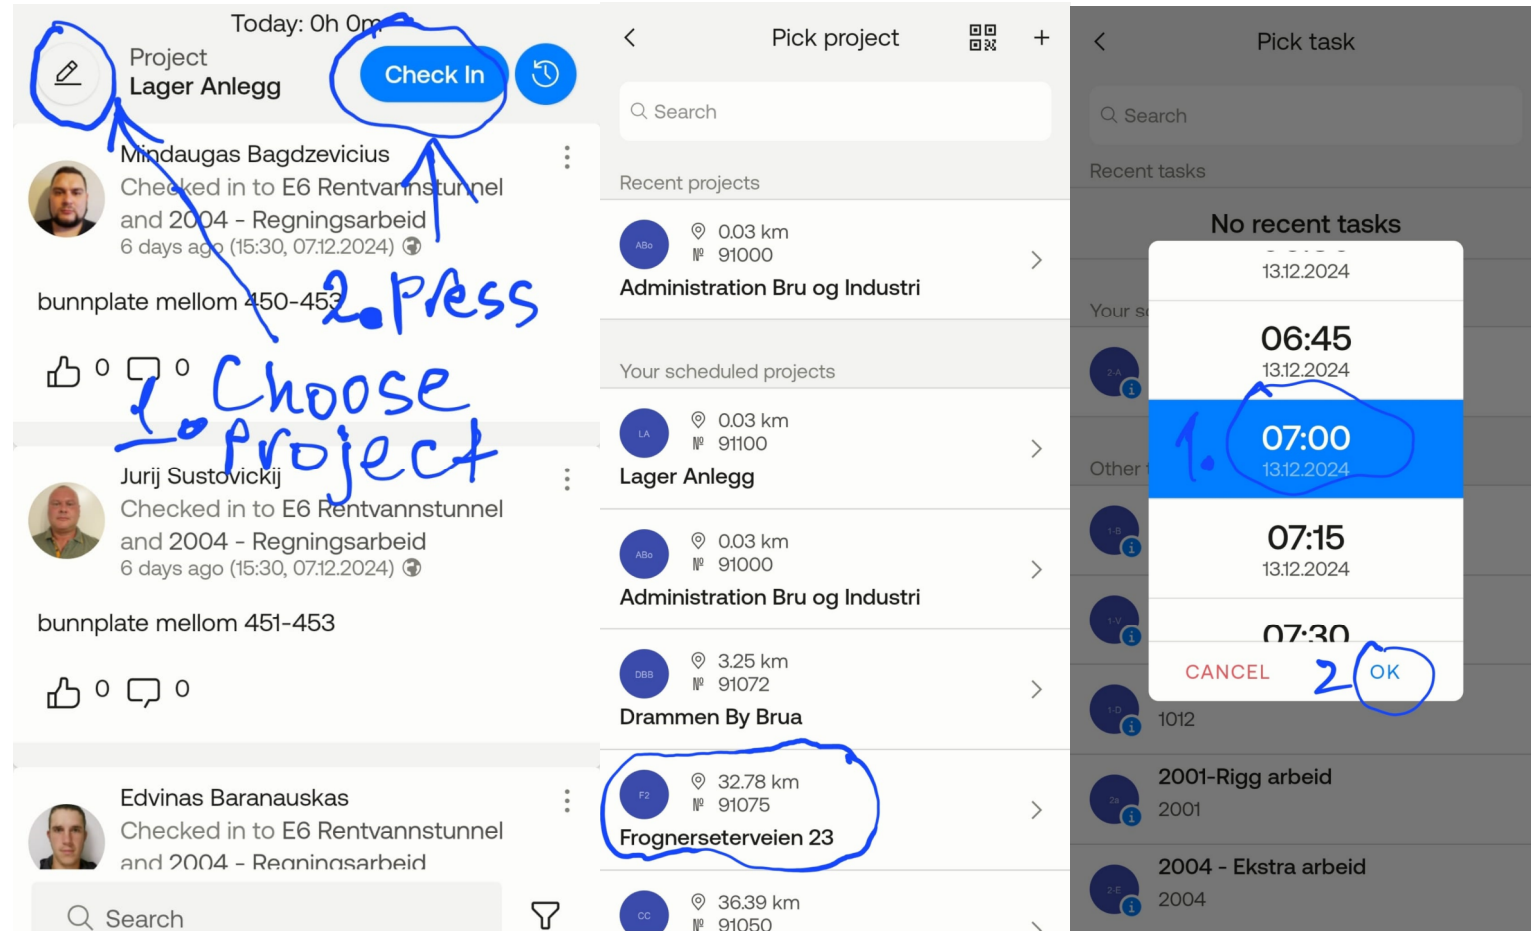

4. Choose Project

It will show geographically the closest one.

Use search field if you don't see project in the list.

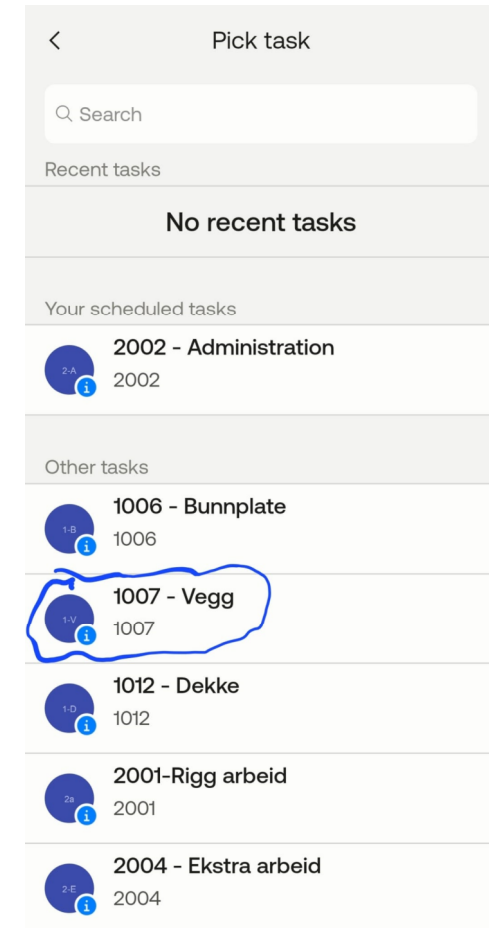

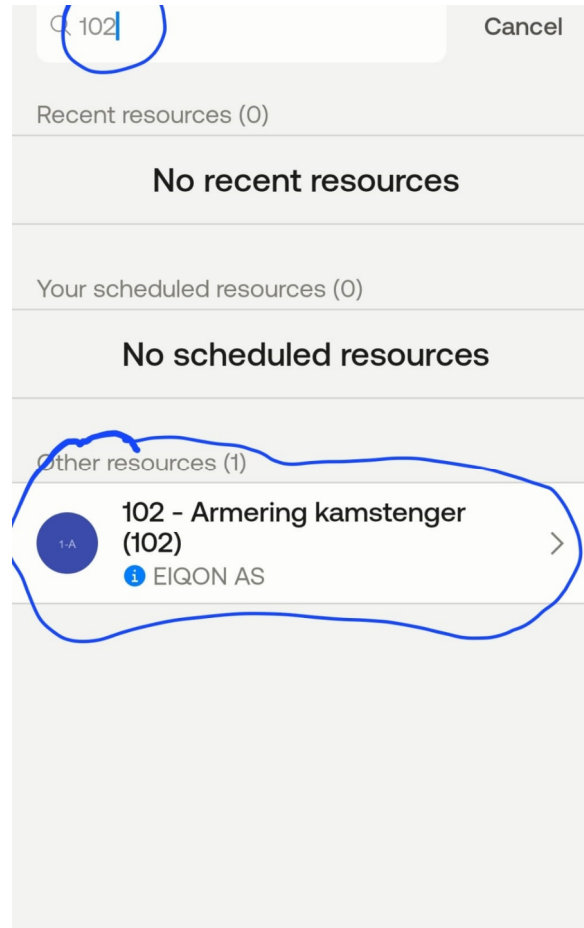

5. Press check in. Check in is mandatory to show start time at the project.

6. After you press check in, you choose work you are doing:
Forskaling, armering, etc.

7. After you are choosing structure you work on:
Bunnplate, fundament, vegg.

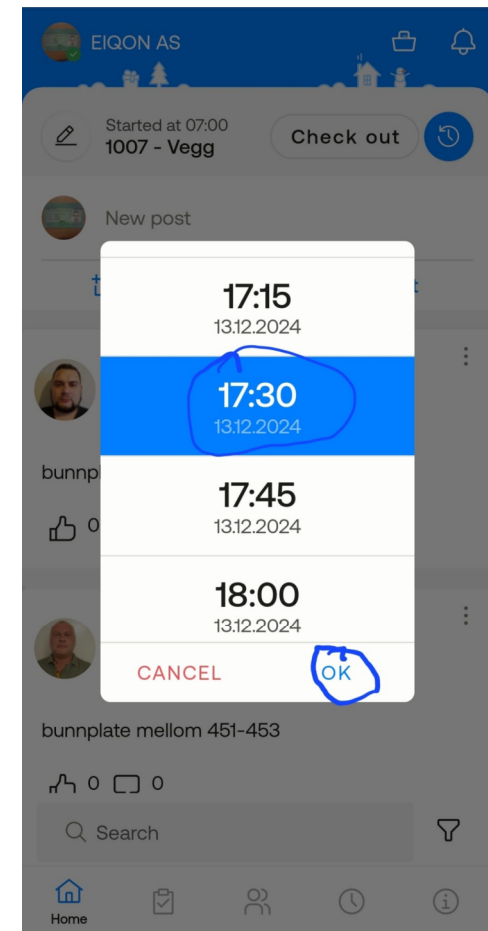

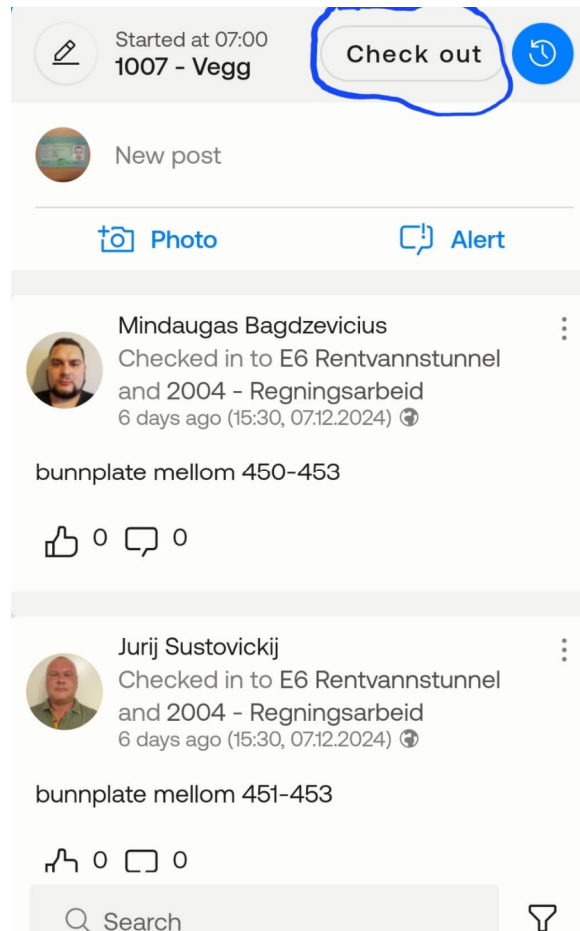

8. Use search field to find correct work/structure. Ask nearest forman for explanation, if you are not sure, what to choose.

9. At end of work press Check out.
Don't forget to check out. It is very important.

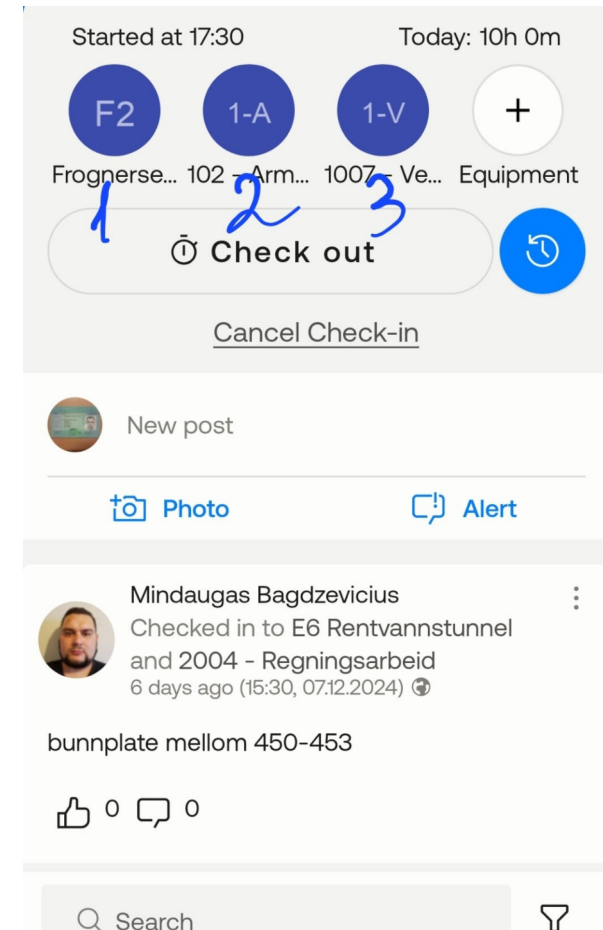

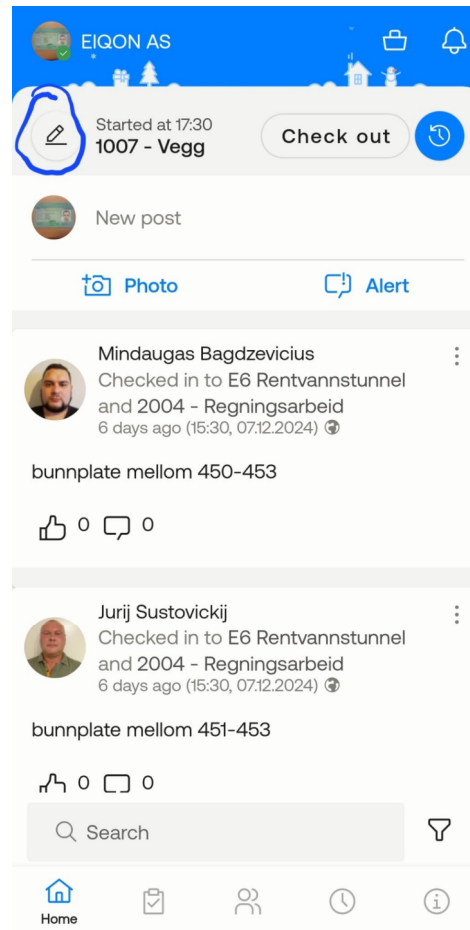

Next day it will impossible to check in. System will think that you worked too mant hours, and must have free.

10. You have ca 4 hours after normal end of day, to revise check in/out time

11. If during the day you have to change work/place/structure. You can revise it in Ditio without check out.

12. Check out done, in the end of day or if you change the project

13. List of locations is project specific, you ask formen for explanation.

14. List of works, has 3 number code

15. List of structures has 4 number code
